

SHAIK TAJMAHABOOB SUBHAN

FULL STACK DEVELOPER (MERN)

+91 7396668037 • Shaiktajmahaboobsubhan864@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with extensive hands-on experience building scalable, production-ready web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Adept at bridging the gap between complex backend architectures and highly intuitive, performance-optimized frontend interfaces. Proven track record of engineering robust, end-to-end web solutions for diverse industries, including fintech, e-commerce, and real estate.

TECHNICAL SKILLS

- Frontend Architecture:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Component-Driven UI, Application State Management.
- Backend Development:** Node.js, Express.js, RESTful API Design, Retrieval-Augmented Generation (RAG), Secure Authentication.
- Databases & Tools:** MongoDB, Mongoose ORM, Git, GitHub, Cloud Infrastructure, Location-Specific API Services (Geo-fencing).
- Design & Prototyping:** Figma, Architecture Wireframing, System Blueprinting, Usability Engineering, Cross-Device Prototyping.

PROFESSIONAL EXPERIENCE

Full Stack Developer • Sharpcode

2023 – Present

Links: [Company Portal](#) | [Portfolio](#)

- Architected, developed, and deployed an internal enterprise portal implementing secure, highly accurate **geo-fencing functionality** (punch-in/out protocols) to automate corporate attendance tracking.
- Engineered the company's official high-traffic showcase platform, optimizing client-side performance, core web vitals, and universal responsiveness.
- Integrated advanced location-based server microservices and handled complex database querying workflows leveraging Node.js and MongoDB.

Freelance Full Stack Web Developer • Client Projects

Current

Sectors: Fintech, Real Estate, Hospitality, Education

- Engineered and scaled custom end-to-end web applications for local and regional businesses (including Cafes, Educational Institutes, and Real Estate entities), modernizing their digital capabilities.
- Designed flexible database schemas and structured micro-frontends to optimize layout efficiency, driving a measurable increase in client user engagement and interaction.

SELECTED PROJECTS

Telugu Yuvatha E-commerce Platform

MERN Stack

- Built a high-performance, full-stack premium apparel e-commerce system hosting dual operational modes: a customer storefront and a feature-rich, role-based administration dashboard.
- Implemented **secure online payment integrations**, a cloud-based digital asset pipeline (image optimization), dynamic order tracking infrastructure, and automated background transaction workers.
- Configured custom server-side event dispatchers for automated real-time dispatch management and transactional email updates.

RAG Gemini Medical Chatbot

AI Integration

- Developed an intelligent, context-aware artificial intelligence health assistant applying **Retrieval-Augmented Generation (RAG)** orchestration models.
- Integrated Google's Gemini API into server application architectures, querying custom clinical knowledge indexes to produce semantically sound responses with low-latency execution.

EDUCATION

B.Tech in Computer Science Engineering

2022 – 2025

Andhra University College of Engineering, Visakhapatnam | **CGPA: 7.9**

Intermediate (MPC)

2021

Board of Intermediate Education, Andhra Pradesh | **Score: 891 / 1000**

CERTIFICATIONS

- **Full Stack Web Development & Data Structures and Algorithms (DSA)** – Apna College
- **Google UI/UX Design Professional Certificate** – Focus on architecture wireframing and user-centric software design.
